# 2017 Southwestern Region Southern New Mexico Forest Plan Revision Timelines

	<b>Lincoln National Forest</b>	<b>Gila National Forest</b>
<b>JAN-MAR (Winter)</b>	Finalize Draft Assessment.	Finalize assessment report and need for change document based on stakeholder feedback received in Fall 2016.
<b>APR-JUN (Spring)</b>	Deliver Draft Assessment to the Regional Office for review. Incorporate Regional Office feedback into the Draft Assessment; prepare the document for release to the public. Begin drafting needs for change to the current Forest Plan, based on assessment findings.	Publish NEPA Federal Register Notice of Intent to begin the plan revision phase based on the needs for change to the current Forest Plan with a subsequent public scoping period. Start drafting the proposed forest plan and associated plan components (e.g. desired conditions, objectives, standards, guidelines, suitability). Continue stakeholder engagement including potential community meetings, technical meetings, open houses, and field trips to gather input. Initiate wilderness inventory and wild and scenic river eligibility processes.
<b>JUL-SEP (Summer)</b>	Draft assessment and preliminary needs for change released to the public for review and input. Start public meetings to present and discuss key findings of the draft assessment report and preliminary needs for change. Gather public input on draft assessment and preliminary needs for change. Finalize the assessment based on public input.	Continue development (with associated stakeholder involvement) on the draft proposed plan, its plan components, and the wilderness and wild and scenic river processes.
<b>OCT-DEC (Fall)</b>	Publish NEPA Federal Register Notice of Intent to prepare an Environmental Impact Statement (EIS) for the plan revision, based on final needs for change. Identify cooperating agencies. Initiate wilderness inventory process and public meetings. Engage the public in developing recommended wilderness inventory and evaluation criteria, and begin inventorying potential wilderness areas based on that criteria.	Release preliminary draft proposed forest plan for stakeholder feedback. Complete wilderness and wild and scenic river evaluation processes. Begin identification of alternatives and development of the Draft Environmental Impact Statement (DEIS).
